Portfolio: kero.io

SUMMARY

Junior Flutter Developer and third-year Computer Science and Artificial Intelligence student with hands-on experience building mobile applications using Flutter, Dart, Firebase, REST APIs, local databases, and responsive UI. Skilled in converting Figma designs into clean Flutter screens, integrating APIs, managing authentication and app data, and publishing portfolio projects on GitHub. Currently expanding skills in state management, Google Maps, animations, and AI automation.

Projects

Flutter Developer - Financi UI

Financial Mobile UI

Personal Project | Flutter / Dart

- Developed a modern financial mobile UI that simulates a clean and intuitive digital banking experience.
- Built authentication flow screens including login, OTP verification, and reset password.
- Created a dashboard with financial statistics, card management screens, and a user profile section.
- Implemented responsive layouts using Flutter ScreenUtil and navigation management using GoRouter.
- Used pin_code_fields for OTP input, carousel_slider and dots_indicator for card sliders, and fl_chart for financial charts.

Flutter Developer - Meals App

Local Database App

Personal Project | Flutter / Dart

- Built a Flutter app for saving and managing meals locally on the device.
- Created a first-launch onboarding flow using SharedPreferences so onboarding appears only once.
- Implemented an add-meal form for meal title, image URL, rate, time, and description.
- Stored and retrieved meal data locally using Sqflite.
- Added a meal details view to display the meal image, description, rate, and preparation time.

Flutter Developer - News App

REST API News App

Personal Project | Flutter / Dart

- Developed a Flutter news app that displays the latest headlines and allows users to browse by category.
- Integrated REST API data and displayed news cards with title, image, author, and date.
- Implemented search functionality with results in English and Arabic.
- Built clean UI screens with navigation between pages and responsive design using Flutter ScreenUtil.

STRENGTHS

Communication
Strong communication skills and effective collaboration in team settings.

Creative Thinking
Ability to think creatively and solve problems innovatively.

Leadership
Leadership skills in group settings and projects.

Active Listening
Active listening for better team interactions.

Work Ethic
Strong work ethic and dedication to quality results.

Teamwork
Capable of working effectively in teams.

Positivity
Positive attitude toward work and colleagues.

SKILLS

Dart | Flutter | SOLID | OOP | Problem Solving | Firebase | Bloc | Cubit | Dio | Sqflite | SharedPreferences | Secure Storage | MVVM | Git | GitHub | GoRouter | Flutter ScreenUtil | Figma to Flutter

EDUCATION

Third-Year Student in Computer Science and Artificial Intelligence

Bachelor's Degree - In Progress
